DroidKnights presents to you our Weekly report
🤖 KitKat" 🤖

Week : .07.06 -13.06 '2021

Requirements #1: Additional Essential, Necessary, Nice to have requirements for App.
Upload PPt by 13.06.2021 for the Advance prototype.
Submit blog on Advance Prototype on Gitlab Wiki.

Minutes of meeting:

🤖 Agenda 🤖 Essentials/Necessary and nice to have requirements.

🤖 Assigning Presentation Role and submit ppt by 13.06.

🤖 Update blog and weekly progress at the end of the week.

🤖 Update on offline capabilities.

PPt: 🤖 Harsha has taken the role of presenting the Advance prototype and he'll be working on the PPt as well.

Completion of Requirement:

🤖 ^ Team has successfully completed additional Essential requirements

🤖 ^ Select currency from setting and Easy to enter numbers.

🤖 ^ Currency Symbol in front of currency digit added.

🤖 ^ Analytics Implemented with graphical representation.

🤖 ^ Splash screen describing App purpose.

🤖 ^ Access to contact was taking numbers but now - name of the contact can be viewed while Fetching contact ID for a particular transaction.

🤖 ^ Manually able to select an option – borrow and lend on selected contact.

Drawback: 🤖 ^ Due to Time constraint Several Project requirement was not able to be completed

Major Outcome: 🤖 ^ The App running in offline mode was the biggest concern and is now been accomplished. The App is fully operational in offline mode.

Progress Update:

🤖 Blog: Advance Prototype Blog has been updated - Overview

Software Architechture - MVC

Coding Conventions – lowerCamelCase, snake_case

Context of use: Two example profile

Design Solutions

Summary of Changes along with updated Use-case & Class diagram

Advance Working Prototype preview.

🤖 Weekly report: Changes to weekly report 7 (Naming mistake) and changes to weekly report 8 (minor spelling mistake) corrected. Along with updated weekly report 9.

🤖 **PPt uploaded! Team wished Harsha the very best in the upcoming 3rd milestone – The Advance Prototype.** 🤖
